WHAT IT IS

The river of a dollar, read left to right through nine stations, from its source in the Nation’s accounts, where every headwater arrives as Canadian dollars held on deposit, through the Nation’s growth, to its mouth, back to Canadian dollars at par, blue at its centre with green banks paling into the tan, with you on its bank, nine headwaters where capital can come in, three today and six from the Schedule of Unjust Enrichment (Gazette No. 61) when the Nation’s exclusive use and enjoyment is observed, and six tributaries where a dollar can be spent inside the Nation, running blue from its source, green through the Nation and tan at its mouth; beneath it GR$ 1 = CA$ 1 with no exchange rate, spread or fee, the three totals that must agree every day and a day’s proof as published; then a business’s GR$50.00 sale with what the river builds, the Nation’s purposes, the seven protections with the four questions people ask first, and the night’s seal chained onward to the Ledger, OpenTimestamps and Bitcoin. On the web the dollar travels the river station by station, each station and tributary answers a tap, the day’s proof reads the Register’s own reserves live, a member’s year stands in figures, the two rivers run side by side, the totals count up and agree, the phone pays on a tap, and the seal builds from its leaves.

Its date	2026-10-27al
Made by	Mohawk’s Printer for Grand River
Their qualifications	Drawn by Mohawk’s Printer for Grand River from the National Books’ own data; Book XIX, The Grand River Dollar shows it on a page of its own.
Their duty	Not recorded.
Its standing as a survey	This is the Nation’s determination, made from the sources named; it is not a survey under the Surveyors Act, and was not prepared by a licensed surveyor.
Datum and projection	Not a map; the Three Villages’ inset keeps the land map’s datum (NAD83 / UTM zone 17N).

HOW IT WAS MADE

An illustration, drawn from the sources below; printed in A3 landscape (420 × 297 mm), with A2 and A1 print files, 3 mm bleed and crop marks.

HOW SURELY

An illustration, not a survey: the figures stand for no particular family. The Three Villages’ inset is

the Register’s own land map, drawn from its layers.

A poster: it teaches, and does not decide. The record of any person’s line is the Register’s.

MOHAWK NATION OF GRAND RIVER

The Grand River Dollar

One Grand River dollar is one Canadian dollar. Always. Backed in full, and proven every day.

What it is, how it stays safe, what it does for a business and for the Nation, and how to pay with it · From Book XXIII of the National Books, The Grand River Dollar

THE RIVER OF A DOLLAR: WHERE IT COMES FROM, WHERE IT GOES, AND HOW IT IS PROVEN ALONG THE WAY

Read it left to right: the headwaters gather at the source, a Grand River dollar goes round, a Canadian dollar comes out at the mouth. Three hands make GR$100 do the work of GR$300, an example, not a forecast: it depends on how many businesses take it, the role the Nation names first and answers with no fees, discounts and the public list.

HEADWATERS a members' pay, and deposits · **TRIBUTARIES** the earnings of the Nation's own businesses: · the Million Acre Wall, supporters, foundations and governments · **A bend:** trade, loans · and the levies on it (layers 3 and 5) · **A** to **F** services, fees and premises · aggregate, water-taking, development permitting (layer 4) · **F** infrastructure on the Trust, licensed back to Canada and the Province: roads, water, power, telecom (layer 2) · **G** farms, trade and industry (layers 5 and 6) · **H** patents and intellectual property, the Nation's own strong three (layer 7) · **I** natural resources: timber, minerals, water (layer 8) · **J** the Nation's gravels, shops and vendors, in the territory · **K** trades and services · **L** rent on a Nation landlord · **m** the Nation's fees: passports, credentials, certificates · **n** the Treasury, and the Million Acre Wall · **o** any member, by name

TWO RIVERS: THE SAME DOLLAR

GR$100, three hands — GR$300 of the Nation's activity, and it comes back

CA$100, one hand — spent outside, gone

SEVEN PROTECTIONS

1. **Full backing** — a Canadian dollar held for every one owed
2. **Never lent out** — kept where only from the Nation's loan fund
3. **Two signatures** — in person or today; a key kept offline
4. **A daily proof** — *published every day at /reserves/*
5. **A sealed record** — *each night's root on the Ledger, in Bitcoin*
6. **Against crime** — *CTC, records and reporting, after the FATF*
7. **Who checks** — *a compliance officer, a yearly audit, IPSAS, the Inspector General*

Legal tender? No: accepted by those who choose to; always redeemable at par.
More out of nothing? No: one is made only against a Canadian dollar received, with two signatures; the proof would show any gap.
If the Canadian dollar fails? So does this one: it is a Canadian dollar, held. No currency risk, no return.
Insured? Not yet by deposit insurance; held in full and never lent. Deposit protection, after the IADI principles, is next.

THE NIGHT'S SEAL, AND THE PARTICULARS

the night's payments, paired upward to one seal, the root goes sealed

Read it from the bottom up. Each payment is a leaf; each pair is joined into one fingerprint, until one root remains. A change to any payment would show.

Name and sign	Grand River dollar, GR$
Value	one Canadian dollar, always
Minor unit	two decimals, as ISO 4217
On Stellar	asset GRANDRIVER, issuer's key offline
The seal	RFC 6962, the Ledger signed 03A-3072
Anchored	daily, by OpenTimestamps, to Bitcoin

Open an account through My Register; the Bank and the Treasury, Book XXII, holds the books; How to Check a Document of the Nation shows how any proof is read. The figures are drawn for the poster.
